

REPEAT MEDICATIONS

If your animal requires ongoing prescription medication over the counter it is advisable to contact the clinic prior to your arrival. It is recommended that you give us at least 24 hours notice to ensure that the medication is available and verified by the veterinarian.

Ongoing prescription medication requires a revisit with the veterinarian at least every 6 months (sometimes more frequently depending on the drug). Please be aware that if the patient is not seen for these rechecks then the drugs **WILL NOT** be dispensed.
